<u>Homework Day 5</u>

Author: Daniel Ramírez, 2022

If you took more than two hours to do the Assessment:
- Day 6 videos
- Install Rstudio on your computer
- Time yourself
- Practice vim
- Practice bash
    - Moving from directory to directory
    - Remember tab complete!
- Practice running SBATCH scripts
    - Using variables
- Checking error and out files

If you took two hours or less to do the Assessment:
- Day 6 videos
- Install R(https://rweb.crmda.ku.edu/cran/) and R-studio (https://www.rstudio.com/products/rstudio/download/) on your computer

If you want to challenge yourself:
- How do you have to edit the script **d5-bam-to-tdf-pairedend.sbatch** for it to run on datasets sequenced as single-end reads instead of the paired-end reads you have used in class so far.
